Value of academics

Creating opportunities
for employees and
employers!

Leverage from
the EU
2014–2020

Do your skills meet the needs of a changing working life?

We help highly educated people and companies connect.

Matching labour demand and supply is key in today's working life and in finding employment. We offer services which help connect companies recruiting and job seekers above the age of 35 living in Espoo, Helsinki and Vantaa. The services are free of charge.

You can join through our services:

Korko Competence Analysis is a free competence mapping that includes personal sparring aiming to identify your skills.

In the **Korko Peer Group** you get support in identifying changes in working life, discovering new perspectives, targeting your skills and bringing them forth. The goal is that you find employment.

In the **Korko Pool** you gain entry to a pool of skilled professionals among whom our business developers can find experts meeting the needs of companies. The probability that you will find employment increases.

Korko Value of academics - creating opportunities for employees and employers is a joint development project of the municipalities of Espoo, Helsinki and Vantaa. Our aim is to connect educated professionals and the need for highly educated workers in companies. The project is funded by the European Social Fund (ESF) and the cities of Espoo, Helsinki and Vantaa. It is managed by the City of Espoo.

Join us, find new perspectives and new ways in which to put your skills to use. Create success together with us!
